

Grazing Naturally

with Dick Richardson

A two-day workshop focused on natural grazing to improve soil depth and health, water retention, increased biodiversity and animal production

Saturday 16th & Sunday 17th November 2019

Wondai RSL - 87 Mackenzie Street Wondai QLD 4606

Note: This is a 2-part workshop program, which also includes a monthly follow up support network.

Workshop 1: November 2019; Workshop 2: April 2020.

Regular catchups will be organised between workshops to support participants implementing management changes on their own farm.

Participation at both workshops and the support network is encouraged to benefit from this unique opportunity.

Day 1 - Key concepts of Grazing Naturally

- Principles of soil health - the importance of soil cover & depth
- How living organisms build soil & the carbon cycle
- Managing and maximising available water
- The relationship between management decisions & landscape function

Day 2 - Practical application

- The natural functions of a grazing ecosystem
- How to run stock for best outcomes in the growing season and non-growing season
- Matching stocking rate to carrying capacity
- Developing grazing plans

COST per enterprise (up to 2 people):

\$200 non-members or

\$150 SBGN-members

(please contact if more than 2 ppl /enterprise for pricing)

RSVP: sbgn14@gmail.com or
